**Indicadores generales de calidad de la producción científica**

Investigator since 1997; Period of research (sexenio): 3 (2006-2011; 2012-2017). The third period began on January 2018.

Number of total publications: 237; Number of publications First Decile: 39; Number of publications First Quartile: 58; Number of publications First author or Last author: 60. Parameters (Based on SCOPUS; 10/02/2021): Total citations: 2792; h-index: 32; Last five years citations: 1283. Total Projects: 40; Projects as principal researcher: 16; Contracts: 3.

Author of 2 Clinical Guides:

- SEGO: Sociedad Española de Ginecología Oncológica y Patología Mamaria: Cáncer de cuello uterino and Sarcoma uterino.
- ESGO: European Society of Gynaecological Oncology. Cervical Cancer Guide Reviewer.

- ESGO: European Society of Gynaecological Oncology. Endometrial Cancer Guide Reviewer.

Department of Obstetrics and Gynecology of the Hospital Materno-Infantil Vall Hebrón is recognised and accredited like a European Training centre in Gynaecological Oncology from 2014 to 2026 by European Board and College of Obstetrics and Gynaecology and European Society of Gynaecological Oncology (EBCOG and ESGO).

## **RESUMEN LIBRE DEL CURRÍCULUM**

I have a strong commitment towards the improvement and the innovation of the health system. I am the Head of the Gynaecology Service of the Vall Hebron Hospital since 2013 and Principal Investigator of the Biomedical Research Group in Gynecology at Vall Hebron Institute of Research from 2014. My involvement in clinical and translational research began in 1997 as a gynecologist at Vall d'Hebron Hospital and collaborator in Dr. Jaume Reventós group: the Biomedical Research Unit at VHIR. In the year 2004 I obtained my PhD in Medicine and Surgery at the University Autonomous of Barcelona (UAB). Since then I have been participating in more than 40 research projects, 16 of them as Principal Investigator. As a result of this research, I have published a total of 237 peer-reviewed articles in international journals, as well as many articles in national journals, 32 book chapters (nationals and internationals), and 4 patents, one is licensed and ended up in a the first commercialized IVD in endometrial cancer.

I have broad experience in clinical oncology as well as great deal of experience as coordinator of translational oncology projects. Currently, all the ongoing projects carry out by my research group are based on unmet clinical issues on gynecologic cancers of the endometrium, ovary, cervix and vulva; and on gynecologic benign pathologies, such as endometriosis; combining both basic and translational research.
